

# IMPROVE YOUR MASTERY OF THE ENGLISH LANGUAGE IN AN ORIGINAL WAY

Timothy Byrne

## ENGLISH THROUGH FILM

USING FILM IN THE LANGUAGE CLASSROOM

*English through Film* offers language teachers at secondary schools and higher-education institutions the opportunity to use film as a starting point for improving the (mainly) spoken English skills of their students.

Twenty classroom activities based on a total of thirty English-language films have been proposed. The idea is that teachers do the activity on the film as it is presented in the book, but they can also try out the same activity on another film discussed. Depending on their level, the students can be asked to organize the activity themselves, but in connection with yet another movie in *English through Film*, or apply one of the other activities proposed in the book to the film the teacher has selected.
